## Sources and mapping method

Numbering, territory names and status notes: uploaded workbook, Master\_ISO\_249 and its supplementary sheets.

Geometry joined by ISO alpha-2 codes, with explicit corrections for U.S. Minor Outlying Islands and Svalbard/Jan Mayen.  
Maps use a Plate Carree projection. Dots show representative locations, not capitals or precise survey coordinates.  
The source workbook groups entries for coding; this atlas does not treat every physical island as a separate record.
